-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Applicant amended claims 1-3, 6-7, 9-11, 14, 17-19, 22, 25-27, and 30 in the response filed September 12, 2008 in reply to the office action dated June 12, 2008.

Claims 1-32 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Auction Arms (Reference U, PTO-892).

Referring to claim 1. Arms discloses a network based commerce system, said network commerce system comprising:

a processor coupled to a memory through a bus (page 1 disclosing an online commerce system); and

a fixed price setting process executed from the memory by the processor to:
determine that a high proxy bid is less than a reserve price, wherein the high proxy bid is the highest current proxy bid and the reserve price is the minimum price at which a seller is willing to sell an item, and in response to the determining, cause the processor to automatically publish at least one of a proxy bid information set by a proxy

Art Unit: 3625

bidder and the reserve price, wherein the proxy bid information includes the highest price that the proxy bidder is willing to pay for the item (page 7 disclosing basic style auctions where a seller is obligated to sell at a reserve price (i.e. fixed price) and the proxy bids are displayed).

Referring to claim 2. Arms further discloses a system wherein the fixed price process further causes the processor to automatically unpublish the proxy bid information upon the high proxy bid exceeding the reserve price (page 7 disclosing basic style auctions that inherently close once a reserve is met).

Referring to claim 3. Arms further discloses a system wherein the fixed price process further causes the processor to facilitate a request for an adjustment of a fixed price offer associated with the listing for the item, the request to be sent to the seller (page 7 disclosing Dutch style auctions allowing a seller to adjust offers).

Referring to claims 4-5. Arms further discloses a system wherein the publication is performed during or after the auction price setting process (page 7 disclosing a reserve style auction).

Referring to claim 6. Arms further discloses a system comprising automatically notifying the bidder when the reserve price is published (page 6 disclosing indication of a reserve price has been met).

Referring to claim 7. Arms further discloses a system causing the processor to publish the at least one of a proxy bid information and the reserve price for view by a specific buyer only (page 9 disclosing a watch list for specific buyers).

Art Unit: 3625

Referring to claim 8. Arms further discloses a system causing the processor, when publishing to display the maximum amount a buyer is willing to bid to purchase an item on the listing (page 8 disclosing a user entering a max bid).

Referring to claims 9-32. System, medium, and method claims 9-32 contain similar limitations to those in rejected system claims 1-8 above and are rejected under the same rationale.

Response to Arguments

Applicant's arguments with respect to claims 1-32 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure is noted on the attached PTO-892.

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on September 24, 2008 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
